Meeting Minutes

The SoGreen Project is the first time the 4 Research Infrastructures work together.

WP1/2 Management and coordination

WP3 Green module development
- SoGreen module rather done in April than March 2025
- Currently conceptualising what we want in the module

WP4/6 Data collections
- Plan and operate mixed-mode survey

WP5 Life course dimension of the Green Transition
- Incorporate
- Identify who are the stakeholders; focus on climate change or green transition
- Tips from Project Officer (PO): identify stakeholders; make sure to have a contingency plan

WP7 Preparing contextual environment data
- Environmental data: physical environment: air, green space
- Social environment: bus stop, neighbours
- Different views on data protection in different countries

WP8 Linking survey data to context. data
- Need to try out how to make data available
- Why do we do it like this (at SHARE, why different at ESS)?

WP9/10 Development of dissemination platform and data-related project standards & Data services, summaries, visualisation
- PO: When is the data online on the SoGreen website? It's important to have something ready, e.g. logo, name, beneficiaries, link to development in SHARE; be fast, but have the basics to make the project visible

WP11/12 Knowledge mobilisation lab
- Advertise what colleagues in the other WP achieved
- Deliverables are simple, which tasks to be interpreted

WP12
- Schedule
- Chokepoints: WP3 → WP4
- Linkage

This project has received funding from the European Union under grant agreement No. 101188188.

Input Project Officer

- Reflect on how the results can be made attentive to others
- One of our policies is to point out the advantages of being an ERIC
- Policy DG: show them the areas we are exploring
- Use EU tools, free of charge, European Commission dissemination tools, booster, make sure to know the EUC tags to boost
